PRICE LIST

---

\* \* \*

**To my Friends and Patrons.** \* \* \*

---

\* \* \*

I take the pleasure in presenting my Annual Price-List. For beginners I am making up a One (\$1.00) Dollar collection comprising twelve different fine cacti of blooming size.

I am constantly receiving new varieties, and revised price-list will be sent upon application.

I shall be pleased to quote prices on specimen plants and orders for large quantities.

My plants are well established and perfect, even those of low prices are of blooming size ; therefore my prices are low in comparison to those of dried out and unsightly plants.

Customers who desire to make up a collection, for both cheapness and variety, but not knowing exactly what kinds to order, will do well to leave the selection of same to me.

> ~ ~ ~ ~ ~ <

**Terms.** Cash unless by special agreement.

Special attention given to the packing of all orders.

For damage in transit, forwarders must be held responsible.

Large parcels must be sent by express.

In ordering, please write name and address plainly to avoid errors

## PRICE LIST.

### Anhaloniums.

- + 1. A. fissuratum, (Living Rock Cactus.) A very curious looking plant, without spines, 25 to ~~50~~
- + 2. A. Lewinii, closely related to Williamsii, <sup>20</sup> 25 to ~~40~~
- 3. A. Prismaticum, spineless, tubercles triangular, 25 to 60
- 4. A. Williamsii, (Baldhead), turnip-shaped root, no spines, 25 to 50
- + 5. **Astrophytum Myriostigma**, (Bishop's Hood.) A very showy plant, and difficult to obtain in good shape, <sup>20</sup> ~~40 to 1 50~~

### Echinocactus.

- 6. E. bicolor, a grand plant, 30 to 60
- 7. E. beguini, (by some called Mam. fulvispina.) Beautiful. Resembles a porcupine, spines white and black, 35 to 60
- 8. E. brevihamatus, long spined, 30 to 75
- + 9. E. capricornis, a very fine companion to the "Bishop's Hood" and a fine bloomer, <sup>30</sup> ~~40 to 1 00~~
- 10. E. coptonogonus, 50 to 1 00
- 11. E. cornigerus, central spine of a red color, very broad and curved, 50 to 75
- 12. E. electracanthus, (hæmatecanthus,) 50 to 75
- 13. E. heterochromus, new. Don't fail to order it. 75 to 1 00
- 14. Helophorus, very showy. 75 to 1 50

- + E. Gummii 75 - 3 00
- + " mathewii 75
- + " ornatus 75
- + Pelleybora pectinata 35
- + " asseliformis 35

I will also exchange long kind  
 I marked here against your  
 new coming kinds

**Echinocereus.**

- + 47. E. C. Berlandieri, a rapid grower, flowers  
rose colored, - - - 8-15  
~~20 to 30~~
- + 48. E. C. caespitosus, a very nice cactus with  
lace-like spines, big rose-colored flowers,  
and a free and early bloomer. I have a  
fine lot of single-headed plants and clus-  
ters of large size in different shapes and  
color of spines, - - - 5-15  
~~15 to 50~~
- + 49. E. C. chloranthus, many colored, very fine, 25 to ~~50~~
- + 50. E. C. conglomeratus, - - - 30  
~~40 to 75~~
- 51. E. C. ~~cinerascens~~, beautiful, found in very  
few collections, - - - 65 to 1 00
- + 52. E. C. dasyacanthus, - - - 25 to ~~75~~
- 53. E. C. dubius, - - - — to —
- + 54. E. C. enneacanthus of branching habit. 15 to ~~40~~<sup>25</sup>
- + 55. E. C. Engelmanni, one of the finest where a  
striking effect is wanted, spines straw-  
colored, 1 to 3 in. long, flower large, 40  
~~50 to 1 00~~
- 56. E. C. Fendleri, - - - 35 to 75
- + 57. E. C. Heyderi, hard to be found, and very  
rare in collections, spines comb-like, flat-  
tened to the stem, of copper color. Stock  
limited, - - - 25  
~~40 to 75~~
- + 58. E. C. Labouretianus, many-colored, scarce, 30  
~~40 to 75~~
- 59. E. C. paucispinus, - - - 30 to 50
- 60. E. C. pectinatus, var. texensis, - - - 10-25  
~~20 to 35~~
- 61. " " " armatus, - - - 25 to 50
- 62. " " " rufispinus, rare, - - - 35 to 70
- 63. E. C. phoeniceus, - - - 35 to 50
- 64. E. C. polyacanthus, - - - 50 to 75
- 65. E. C. procumbens, - - - 25 to 40
- + *Rivereri* 10-20
- + *caespitosus major* 15

**Pilocereus.**

- + 66. Pilocereus senilis, (Old Man Cactus) - ~~30 to 3 00~~ <sup>25-1 00</sup>
- + 66½ " fossulatus, a beautiful and distinct species of which track has been lost for a long time. It is a fair rival to the "Old Man Cactus" - ~~1 00 to 2 00~~ <sup>40 - 5 00</sup>

**Mamillarias.**

- + 67. M. applanata, (Heyderi) a very fine looking Cactus, - - - - - ~~15 to 50~~ <sup>10-20</sup>
- 68. M. Bocasana, covered with hair like spines, 35 to 75
- 69. M. barbata, - - - - - 25 to 50
- 70. M. bicolor, - - - - - 25 to 35
- 71. M. candida, - - - - - 30 to 50
- 72. M. cornifera, - - - - - 20 to 50
- 73. M. Caretti, new, rare, - - - - - 50 to 75
- 74. M. daemonoceas, - - - - - 35 to 50
- + 75. M. decipiens, of easiest culture, - - - - - ~~15 to 25~~
- 76. M. echinus, - - - - - 20 to 35
- 77. M. echinata, - - - - - 20 to 35
- 78. M. Goodrichii, - - - - - 35 to 50
- + 79. M. Kramerii, very distinct and beautiful, 25 to 50
- 80. <sup>12</sup> Six new varieties. All very desirable. Two of them I consider the most attractive of all the mamillarias, - - - - - 50 to 1 00 *a few left*
- 81. M. leona, a beauty - - - - - 35 to 50
- + 82. M. Lassomeri, new and beautiful, - - - - - 50 to 90
- 83. M. lasiacantha, (Featherball) - - - - - 20 to 40
- + *superfexta* 25-40
- + *erecta* 35
- + *rhodantha brunea* 30-40
- + *Praneri var only 2 beauties* 50.
- + *portales* 40

- + 84. *M. macromeris*, tubercles very prominent, <sup>20</sup>  
spines 1 to 3 in. long, extremely fine, ~~25 to 50~~
- 85. *M. meiacantha*, tubercles triangular, - 20 to 50
- + 86. *M. micromeris*, (Button Cactus) - 25 to ~~50~~
- 87. *M. microthele*, - - - - - 40 to 60
- + 88. *M. Nuttalli*, nice shape, fine bloomer, - <sup>5-15</sup>  
~~10 to 25~~
- + 89. *M. Petersonii*, - - - - - <sup>30</sup>  
~~50 to 75~~
- + 90. *M. Pfeifferi*, with golden yellow spines, <sup>25-40</sup>  
~~40 to 75~~
- 91. *M. pusilla texana*, - - - - - 25 to 35
- + 92. *M. " mexicana*, - - - - - <sup>15</sup>  
~~10 to 25~~
- 93. *M. pectinata*, - - - - - 20 to 35
- + 94. *M. radiosa*, - - - - - <sup>20</sup>  
~~25 to 50~~
- + 95. *M. rigidispina*, - - - - - 25 to ~~60~~
- + 96. *M. sanguinea*, (Blood Cactus.) Spines quite  
dense and straight, which gives the plant  
a brush-like appearance. It is indis-  
pensable in collections, where contrast of  
colors is wanted. Some plants are of <sup>25-40</sup>  
such deep color, as if dipped in blood, ~~60 to 100~~
- 97. *M. sempervivi*, very attractive, woody axilles, 25 to 50
- + 98. *M. stella-aurata*, *var nova* <sup>25</sup>  
~~30 to 50~~
- 99. *M. strobiliformis*, lower warts of a corky  
appearance, - - - - - 25 to 35
- + *parkinsiana* 35
- + *chirchiffera longispina* 30-50
- + *renewens* 25
- + *elegans* 25-35

100.	M. spinosissima, ball shaped with beautiful spines,	- - - - -	35 to	50
101.	M. tuberculosa,	- - - - -	25 to	50
102.	M. Wildiana, feathery,	- - - - -	25 to	50
103.	M. Wissmanni,	- - - - -	20 to	40

**Opuntias.**

104.	O. arborescens,	cutting 10c.	plants,	20 to	30
105.	O. basilaris, spineless and quite different in shape from other opuntias,	cuts 15c.		25 to	35
106.	O. basilaris, new, cuttings	35c. 25	plants	50 to	75
107.	O. basilaris, new, heart-shaped joints of a reddish color, beautiful,	cuts 20c. 25		60 to	75
108.	O. Bernardina, cuttings	25c. 15		30 to	50
109.	O. brachyarthra, cuttings	10c.		15 to	20
110.	O. candelabriformis,	cutting 5c.		15 to	25
111.	O. clavata,	" 10c.		15 to	20
112.	O. Engelmanni,	" 10c.		20 to	30
113.	O. echinocarpa, major,	" 20c.		30 to	50
	The beauty of this tree-like cactus is hard to imagine unless seen, the spines are arranged in a most symmetrical way, covering nearly the whole plant and glistening like golden blades in the sunshine.				
114.	O. Frutescens,	cutting 5c.		10 to	25
115.	O. Lurida,	" 25c.		30 to	50
116.	O. microdasys,	" 10c.		20 to	30
117.	O. macrorrhiza, bulbous roots,	cuts 10c.		20 to	25
118.	O. prolifera,	cutting 15c.		25 to	35
119.	O. senilis,	" 20c.		30 to	50
120.	O. tessellata, a beautiful and very odd-looking kind of shrubby growth, with round joints, no radial spines, one long centre spine only,	cuttings 25c.		50 to	75
121.	O. tessellata var denudata cristata, at present very small cutting, 1/2 to 2 in. long, ready to ship,			40	
122.	O. vulgaris, fruit red, 2 to 3 in. long, pear-shaped,	cuttings, 10c		20 to	25

AGAVES, ALOES, CRASSULAS, ECHEVERIAS,  
GASTERIAS, MESEMBRIANTHEMUMS, etc.

at very low prices, will be ready for shipment

April 15th, 1895, a special list will be  
issued by that time.
